(970) 712-1797

www.thomaskdev.io

OBJECTIVE

Full Stack Web Development or any part of front or back-end development: 20 – 40 hours, contract and mostly remote if possible.

SKILLS

Full Stack Developer: MongoDB ♦ Express ♦ React ♦ Nodejs ♦ Javascript ♦ SQL ♦ Redux ♦ CSS/Sass ♦ Bootstrap ♦ JQuery ♦ Adobe Creative Suite ♦ Typescript

PREVIOUS GREAT JOBS

PETSMART, INC

Director of Training and Development

In addition to designing the training program for all positions, I also developed a computer-based training program, an automated remote screening program for applicants and a computer-based policies and procedures system.

ARMSTRONG CONSULTANTS, INC

Client Services Manager

Developed presentations of airport engineering and planning services delivered to city, state and federal groups. I also developed video presentations and professional printed collateral.

FRONTIER AIRLINES, INC

Training Manager

Developed and implemented FAA approved training programs. Developed government approved policies and procedures. I also developed an automated load planning program that was approved by the FAA and used in hub city operations.

THRIVENT FINANCIAL

Financial Advisor, Stock Broker, Insurance Agent

Wrote comprehensive financial plans for investors and retirees.
